Readme

This is the official user documentation for the TaxCore solution implemented within the СУФ project.

It provides a description of all system concepts, applications and features. The documentation is constantly updated to provide a timely description of all solution changes and upgrades.

Documentation content is intended for all direct system users (tax authority officers, taxpayers and their authorized persons, EFD vendors...) as well as the general public.

For more information on how to search and navigate the content, see Help Viewer.
