

Invoice Counter

Invoice counter is actually the invoice number according to the invoice and transaction type. It shows the following information:

- the number of invoices of a particular [invoice and transaction type](#) issued with that combination of secure element UIDs
- the total number of invoices issued that combination of secure element UIDs

For example, invoice counter **267/303 NS** means that

- this invoice is a Normal Sale invoice
- a total of **267** Normal Sale invoices were issued with that secure element
- a total of **303** invoices of all types were issued with that secure element
